

I would like to keep the no call list as it is .

It is very disturbing to recieve phone calls from someone that I don't know and don't want to have in my living room in any way shape or form.

No one would think twice if a person were to react strongly if a salesman walked into thier living room and tried to sell something out of the blue.

This is the same with telemarketing , except that telemarketing is even more invasive.

Telemarketing interupts family dinners, t.v. time with each other ,and when telemarketing was legal in Wisconsin, telemarketers would not think twice about interrupting when we have company over and it is especially disruptive when we're on the internet and get downloads and other internet sessions interrupted .

We do not like telemarketing at all . Telemarketers are not welcome to call our phone . Not today and not ever .Even if the law say's that they may do so . It is our phone . We pay the bill , and as such we allow no telemarketing to our home.
